

To whom it may concern,

This letter serves to affirm that Mission.io is the sole designer, developer, and supplier of its pioneering experiential learning platform, catering primarily to educational agencies and institutions across the K-12 space. Mission.io is solely responsible for the conception, sales, and support of its distinctive products and services.

Mission.io prides itself on delivering cutting-edge technology to educators, distinguished by its origin from significant research grants, including those from esteemed bodies such as the National Science Foundation and U.S. Department of Education. Our technology's uniqueness lies in its capacity to evaluate student performance across knowledge and skills, through engaging group simulations. These simulations are accessible via a gamified online platform, featuring adaptive narratives aligned with core educational content, adjusting dynamically to each student's progress and providing comprehensive feedback through regular interaction.

We assure our clients that there is no alternative solution, product, or service on the market that matches the utility, function, or efficacy of the Mission.io platform. This exclusivity is underpinned by our research endeavors, and technological innovations, ensuring that Mission.io's offerings remain unparalleled within the educational sector.

If you desire additional information, please contact us at [info@mission.io](mailto:info@mission.io)

Sincerely,

Brooks Heder  
Co-founder, Mission.io
